Sword Fern

Botanical pattern · Reference sword_fern

Interlocking sword-fern fronds: long falcate pinnae on continuous rachis lines, massed like a forest floor.

Catalogue study, 600 × 900 mm. Illustrative preview, not to scale for cutting.

PATTERN
Sword Fern (Botanical)

REFERENCE
sword_fern · spec revision 2026-10-01-r3

OPEN AREA
About 32.1% at the catalogue study size (600 × 900 mm); it varies with panel size and settings.

MATERIAL
5052 aluminum

SHEET
1/8 in (0.125 in)

LARGEST ONE PIECE
59.5 × 119.5 in flat blank; folded edges reduce the face; larger as a panel array
